PUREBRED AND PARTBRED DIVISIONS

The story of multiple National Champion, KA Tabasco, started many years ago: he marks the 6th generation of National Champions that all started in the USA with his grand-sire, Bruno. Bruno (National Champion Sr. Stallion) was bred by the prestigious Garrison Ranch, credited as one of the first Andalusian breeding farms in the USA and currently the oldest. Tabasco's sire, Santiago (National Champion Sr. Stallion, among his 7 other Champion Titles) was named USEF Andalusian Sire of the Year in 2008 and 2009, making him one of the most in-demand stallions in the country. Besides being an outstanding halter and performance horse, Santiago is also a great ambassador for the Andalusian breed; his amazing photos have graced countless publications. Santiago's get continue to be a presence in the show ring, having won numerous National Championship Titles.

Tabasco himself was bred by Kir – Aim Andalusians and is out of their famous mare, Kahlua. Besides being a National Champion herself (English Pleasure Saddleseat), she may hold a record as every one of her foals has been honored as a National Champion at least once! Margarita (grand-dam to Tabasco) is also a National Champion, having been named National Champion Senior Mare.

KA Tabasco was purchased from Kir–Aim Andalusians by CR Partners and is now standing at Corona Real Show Horses. After seeing him perform under saddle and being astounded by his movement, there was no question he was "The One". Tabasco had made his mark in the show ring before being purchased and has continued to add to his impressive show record, now holding multiple National Championship Titles in English Pleasure Saddle Seat, Show Pleasure Driving, Country Pleasure and Show Hack. He is also the sire to KA Cilantro, Top Five National Champion 2 & Under Colt and Gold Medal Best Movement Winner, and several other up-and-coming offspring.

If you are looking to improve your breeding program and add some sizzling movement and a work ethic that is second to none, why not capitalize on a proven, successful program that is six generations in the making?
